

## SENATORS IN FAVOR OF A SUGAR BOUNTY

### ENCOURAGEMENT IS GIVEN TO THE PLANTERS.

The Measure Not Likely to Be Successful in the House—National Arbitration Bill Reported—New Silver Party in Contemplation—Other Washington News.

Washington, Feb. 27.—While the sugar bounty proposition passed the senate with a rush yesterday it will meet with determined opposition in the house. The amendment as it was passed is in two sections. One provides for the payment of the bounty on the crop of 1894, which was undoubtedly earned fairly, but was shut off by an unexpected ruling of the treasury department. The second paragraph provides for a future bounty which will take \$5,000,000 at least out of the treasury and possibly twice as much more. Senator Gorman entered a strong protest against the future bounty on the ground that the senate was in difficulties and could not possibly stand the strain unless provision were made to supply the money.

The question was divided, the vote being upon the proposition for bounty on sugar produced prior to the passage of the tariff act, and it was agreed to—yeas 46, nays 20. Analysis of the vote: For the bounty: Republicans, 26; Democrats, 16; populists, 4. Against: Democrats, 14; Republicans, 6.

The vote was then taken on the second branch of the sugar bounty amendment, for an aggregate bounty of \$5,000,000, and it was agreed to—yeas 36, nays 25—as follows: For the aggregate bounty: Republicans, 19; Democrats, 15; populists, 2. Against: Democrats, 12; Republicans, 12; populists, 1.

Messrs. Gorman and Barry had a brisk exchange of personalities over timber inspectors who had been denounced by Mr. Gorman as political favorites. Mr. Walcott also made a severe arraignment of timber inspectors.

At night the senate held a special session to consider bills on the calendar to which there is no objection. Senator Cullom called up and had passed two bills, one for the construction of a bridge over the Illinois river at Hennepin, and the other for the relief of the national bank at Mound City, Ill. Both measures have already passed the house, and will now be sent to the President for his approval.

The resolution concerning the Mexican free zone, with revisions to include the entire length of the zone, was agreed to.

Senator Voorhees, from the committee on finance, offered an amendment to the sundry civil bill embodying the recent resolution of Senator Wolcott for participation by the United States in an international monetary conference.

"Is it expected that senate commissioners will be chosen before the adjournment?" asked Senator Hawley.

"That is the understanding, I believe," replied Mr. Voorhees.

The amendment was referred to the appropriations committee.

The sundry civil bill was then taken up. Senator Cockrell offered a committee amendment, which was agreed to, appropriating \$4,000 to Col. Ainsworth, chief of the bureau of records and pensions of the war department, to reimburse him for legal expenses resulting from the Ford's theater disaster. An additional \$10,000 for heirs of two additional victims of the Ford's theater disaster was agreed to.

Senator Barry, chairman of the committee on public lands, spoke against the proposed committee amendment reducing the appropriation for protecting of timber lands from \$30,000 to \$60,000, and moved an increase to \$120,000.

### TALK OF LABOR MATTERS.

Fithian of Illinois Sharply Criticizes the President.

Washington, Feb. 27.—The house met at 11 o'clock yesterday. Mr. Henderson (dem., N. C.), chairman of the committee on postoffice and post roads, immediately called up the conference report on the postoffice appropriation bill, much to the disappointment of the group of members who were clamoring for unanimous consent to consider bills.

The special order was adopted without division and Mr. McGann, of the labor committee, called up the national arbitration bill entitled a bill "concerning carriers engaged in interstate commerce and their employees."

The purpose of the bill is to provide a board of conciliation consisting of the commissioner of labor and the chairman of the interstate commerce commission, whose duty it should be, when a controversy concerning wages, hours of labor or conditions of employment arose between a carrier under this act and the employees of such carrier, seriously interrupting or threatening to interrupt the business of said carrier, to put themselves in communication with the parties to such controversy and shall use their best efforts, by mediation and conciliation, to amicably settle the same; and if such efforts shall be unsuccessful, should at once endeavor to bring about an arbitration of said controversy by submitting the same to a board consisting of three persons, one to be chosen by the employees, one by the employer and those two selecting the third.

Mr. Erdman (dem., Pa.), one of the committee, explained the provisions of the bill, which, he said, was originally drawn by the attorney-general, and after being carefully considered and perfected by the committee, to-day had the support of all the chiefs of labor organizations involved and of the commissioner of labor.

"Does the bill provide compulsory arbitration?" asked Mr. Simpson (pop., Kan.).

"By no means," replied Mr. Erdman. "The railroads favor it. The laboring men have considered it in all its phases and their representatives are here to-day anxiously urging it. The bill has behind it the unanimous support of our committee."

Mr. Fithian (dem., Ill.) made a bitter speech denouncing the action of the President in sending the troops to Chi-

cago last year to suppress the strike. He declared that Mr. Cleveland's action was unconstitutional and that when the full facts were known, Gov. Altgeld's position would be commended everywhere. He declared the act of the President was not only in violation of the constitution, but was in violation of his own office, which requires him to swear to "protect and defend the constitution of the United States."

Speeches favoring the bill were made by Mr. Ikert (dem., Ohio), Henderson (rep., Iowa), and Dunn (dem., Minn.) an amendment was adopted in the shape of a provision that no employee should be punished for failure to comply with an arbitration award as by contempt of court.

Several other unimportant amendments, together with those offered by the committee, were agreed to and without division the bill passed.

A bill was also passed for publication of the bulletins of the department of labor.

The remainder of the day was devoted to eulogies on the life and public services of the late Philip Sidney Post of Illinois.

### SILVER DEMOCRATS.

Plans Making for a Declaration in Favor of Free Coinage.

Washington, Feb. 27.—For some time there has been a discussion carried on by the house free silver leaders over the practicability of a plan to unite their forces and to crystallize their ideas into some sort of platform or declaration. The net result has been the draft of a declaration addressed "to the democrats of the United States" and outlining a financial policy for the democratic party. The chief instigators of the movement are Messrs. Bland (Mo.), Bryan (Neb.), Shiley (Pa.), and Coffey (Wyo.). Their paper in substance states the financial policy of the party to be for the free coinage of gold and silver on terms of equality at the ratio of 16 to 1, for the issue of all paper money by the government without the intervention of banks, and opposition to any issue of interest bearing bonds without the authority of a special act of congress.

If support of a majority of the party, if congress can be pledged to a financial platform, it is intended to issue the manifesto to the democrats of the United States within a few days. Mr. Bryan has made an incomplete canvass of the silver democrats in the senate. He did not present any prepared declaration, such as he thought it would be wise to make, but merely submitted to them the question of the advisability of such a movement, and suggested, among other things, that a joint meeting of the silver democrats in the two houses be held before adjournment for the consideration of the matter. It is understood while many of the democratic senators expressed interest in the question and stated that it struck them favorably upon first thought they would prefer to have time to think it over in all its bearings before finally committing themselves on the project.

CIVIL BILL IN A BAD FIX.

Populists and Bond People Wage War Over Amendments.

Washington, Feb. 27.—The friends of the amendment to the sundry civil bill providing for an issue of \$100,000,000 certificates of indebtedness have about concluded that they will be unable to get the bill through as long as the amendment remains a part of it. The populist senators have announced their determination to defeat the passage of the bill rather than allow the adoption of the amendment. The friends of the measure have been in consultation more or less and while they have reached no conclusion, some of them concede that it will probably be necessary to abandon the amendment. As a rule the senators who oppose the certificate amendment favor the amendment offered by Senator Mills for the repeal of all laws authorizing the issue of bonds, but it will be opposed by those who favor the certificate amendment as stubbornly as the certificate amendment will be opposed by the anti-bond men. Either faction would probably force a debate that would prevent the passage of the bill, and as no one in any party or faction appears now to desire an extra session, it appears probable that both amendments will be dropped after the facts which are now becoming quite plain shall be emphasized by a few hours' debate.

For Pacific Railway Legislation.

Washington, Feb. 27.—There seems to be little doubt that more attempts at Pacific railway legislation will be made in this congress. The members of the house Pacific railway committee who are opposed to the second bill settling the debts of the Union and Central Pacific companies have presented to the house a minority report signed by Messrs. Snodgrass (Tenn.), Harris (Kan.), and Cooper (Wis.). The report says: "Should the provisions of the bill be accepted by the debtor companies it will result in the transfer of the lien which the government holds as to the principal of the debt to parties whose interest will be entirely antagonistic to that of the government in the final payment of the net interest advanced, amounting to the sum of \$75,712,423, which is, by the terms of the bill, expressly relegated to a third place as a security which will be in effect no security whatever, as there will be, superior to the government claim, the sum of \$129,247,024—one half drawing 5 per cent and one half 4 per cent, all of which will be so managed as to destroy any possibility of the ultimate payment of the government interest."

Transmits Samoan Correspondence.

Washington, Feb. 27.—The President has sent to the senate, in response to a resolution, copies of all the communications relating to Samoa received since the ratifications of the Berlin treaty from Judge Henry C. Ide and ex-consul Blacklock.

Japanese Commit No Atrocities.

London, Feb. 27.—A dispatch to the Times from Chefoo says that after the capture of Wei Hai Wei the Japanese did little looting. No atrocities were committed.

## SLATTERLY MOBBED AT SAVANNAH, GA.

### THE ANTI-CATHOLIC LECTURER CAUSED A RIOT.

Ex-Priest Who Spoke in Janesville Some Time Ago Was Only Saved By the Militia—Masonic Hall Damaged By the Mob—More Trouble Expected.

Savannah, Ga., Feb. 27.—Last night was the most exciting night in the history of Savannah. For five hours the city trembled on the verge of religious riots. The entire military force of the city, except the artillery, was on duty. There are ten infantry companies and the Georgia Hussars, the latter being dismounted. A mob estimated at from 3,000 to 5,000, the greater part being Catholics, challenged their forbearance to the extreme. Bayonet charges were made several times to clear the streets, but the mob, which had gathered about Masonic temple, one of the prominent buildings of the city and situated in the heart of Savannah, stubbornly refused to retire.

For three days the city had been liberally placarded with notices that ex-priest Slattery and his wife, described as an ex-nun, would lecture here on Catholicism. Petitions were circulated asking Mayor Meyers to refuse permission to the ex-priest to hold his lecture. Five hundred signed the petition. When it was presented to the mayor he handed them a written opinion from the corporation attorney to the effect that he, as mayor, had no power to abridge the right of speech guaranteed by the constitution of the United States and Georgia. Mayor Meyers asked the committee to advise all Catholics to keep away from the lecture.

The committee said it was its desire to avoid trouble and it would use its influence in that direction. These efforts utterly failed, however. It was rumored that mobs would come from different sections of the city and that Slattery would be killed. Mayor Meyers issued instructions to Chief McDermott to have the entire available police force on hand at Masonic temple. By 3 o'clock a howling mob of over 1,500 surrounded Masonic hall. In the hall was an audience of 400, including a number of women. The lecturer had hardly begun before brickbats and cobblestones began to rain on the windows. The police had closed all the heavy inside shutters, thus saving the audience from injury, only two or three being injured by falling glass. The rest of the police force was called out, and fifty men were soon in front of the hall. The mob made rushes to secure an entrance, but was driven back time after time by the police. Before 9 o'clock the mob had grown to between 3,000 and 4,000 people. Window after window in the Masonic temple was crushed.

Cries of "Kill him!" "Down with Slattery!" "Death to the Renegade!" were heard. As the ex-priest was about to leave the hall with his friends the chief of police stopped them and refused to allow any one to go down stairs. The mob hissed the police and hooted at their orders to disperse.

The military alarm, eleven taps on all fire bells in the city, was sent in, but when it sounded the mob derided it. The Georgia Hussars, dismounted, under command of Major Mildrem, were the first to respond. The organization contained thirty men in all. Soon after the tramp of other military was heard, and four companies of the Savannah volunteer guards, under command of Col. Garrard, swung into position in front of the hall with fixed bayonets and rifles loaded with ball cartridges.

By order of the mayor the guards formed in two single lines and charged the mob with fixed bayonets in hope of breaking it. They were unsuccessful. Six companies from the First regiment under Lieut. Col. Rolly came up soon afterwards, making eleven companies on the ground. The military was deployed so as to drive the mob back and form a hollow square about the hall.

Vicar-General Caffery, Major Mildrem and others urged the mob to disperse, but to no purpose. With a double line of soldiers a block was formed, and while the rest of the military kept the crowd back nearly all the audience passed out of the hall amid hisses. The four companies of guards were then banked about the door of the hall with the police and Slattery was brought down. He was placed in the center of the military and headed by a detachment of mounted police and with foot police on the sides and four companies of infantry, amid hisses and jeers, marched to the Pulaski house, followed by hundreds. The military made a solid mass in front of the entrance, presented bayonets, and Slattery walked in uninjured. A detachment of police was left at the hotel to guard him over night. Every door to the hotel was locked and guarded. Mrs. Slattery was also removed in safety. The military was still on duty at midnight.

Mrs. Slattery is booked for a lecture this afternoon and Slattery for one tonight. Threats are made that they will be driven from the city. Prominent Catholics and the priests are arousing their influence to quell the riotous element and to induce them to pay no attention to Slattery's attacks on Catholicism. There is great fear that to-day may bring further trouble of an even more serious character.

## FEES WILL BE PAID TO COURT CLERKS

### BILL PAYING THEM A SALARY IS KILLED.

Assemblyman Kimball Had Introduced It By Request—Dobbs Will Have to Quit—Bill to Pay Mayors a Salary Is Killed—Other Business.

Madison, Feb. 27.—Assemblyman Kimball's bill, introduced by request, and concerning fees of clerks of circuit courts, was killed this morning, and the one relating to town line roads was referred to the committee again. In the assembly a substitute bill was reported last night legislating Commissioner of Statistics Dobbs out of office, giving the governor the power to appoint a successor for the term expiring February, 1897, was passed to a third reading. The joint resolution introduced for a memorial to congress in favor of the annexation of Canada; the bill refunding the excess of interest above forty per cent paid in the last two years by school districts for loans from the trust funds, was passed in the senate against eleven democratic votes. The bill providing for the protection of street car employees by vestibules, was again referred to a committee. The bill prohibiting black listing was laid over again. Assemblyman O'Neil's bill for the taxing of foreign building and loan associations, was passed to a third reading. The bill allowing cities to pay their mayor a salary, was killed in the senate.

### NEW ELECTION LAW.

Important Measures Dealt With by Illinois Legislators Yesterday.

Springfield, Ill., Feb. 27.—A bill providing for three important changes in the Australian ballot law was introduced in the house yesterday by Albert Glade of Chicago. The bill was prepared under the direction of John R. Tanner, chairman of the republican state central committee, and W. H. Hinrichsen, chairman of the democratic state central committee. The first important change in the present law is the defining of the term "general election." It has been defined to mean any election, but by this bill it will mean only such elections as are held for a choice of members of the general assembly. The next change is in regard to the manner of holding a contest between candidates for any nomination. The bill provides that when there is a contest between two candidates for a nomination, it shall be settled by the central committee of the party to which the respective contestants belong. If the candidates are independent, then three circuit court judges residing nearest the contestants will decide. The third change provides that whenever a constitutional amendment or other public measure is to be voted upon a separate ballot shall be provided for such purpose. Mr. Anthony of Chicago, purpose.

The friends of the proposed amendment to the law of libel achieved a signal victory in the house yesterday and sent the bill to a third reading. It will be engrossed this week and probably put on its passage in a fortnight or less. Its chances of getting through the house seem to be extremely good. Some minor amendments were made. The vote on the motion to reconsider was 77 to 38. Many new bills were introduced and a number of petitions were presented praying the passage of the bill authorizing cities and villages to levy a tax of 2 per cent on the gross earnings of foreign fire insurance companies for the maintenance of the fire department in such cities and villages. Mr. Cochran presented a resolution, which was adopted by a rising vote, eulogizing Jason Rogers, ex-senator and ex-representative.

The entire session of the senate was given over to a debate upon the adoption of the report of the committee on elections. It was decided that the ballots in connection with the McKinley-Wilson contest in the Forty-third senatorial district be sent for and counted, and also that the county clerks having custody of the same be subpoenaed to appear before the committee, was adopted without amendment. The vote stood 29 yeas to 12 nays. A minority report will be submitted. Senator Kanan obtained unanimous consent to offer a resolution of sympathy and condolence to the death of Jason Rogers of Marion county. It was adopted, and on motion of Senator Littler the senate adjourned as a mark of respect.

Patrons of the council will consist of delegates of state councils and the president and delegate of local councils. All national matters will be passed upon in the upper house, and the lower branch will transact local business. Shaw, Philadelphia; corresponding secretary, Louise Barnum Robbins, Michigan; first recording secretary, Emilie Burlingame Cheney, Maine; second recording secretary, Mrs. Helen Finley Bristol, Quincy, Ill.; treasurer, Hannah J. Reviews of organized work in the municipalities occupied the afternoon session.

## HARRY HAYWARD IS THROUGH

### Concludes His Testimony in the Celebrated Ging Murder Case.

Minneapolis, Minn., Feb. 27.—When the trial of the Hayward murder case was resumed yesterday it was announced that County Auditor Nye could not be present, owing to a funeral in the family and the defendant, who was still on the witness stand, was turned over to Assistant County Attorney A. H. Hall for cross-examination.

Mr. Hall plunged at once into the questions of the various loans made by Hayward to Miss Ging, the aim of his questions apparently being to show that Harry had lent the dressmaker money freely without security and in a loose and unbusiness-like manner. Harry's connection with the loan Miss Ging made on the flour mill at Hamel and the collection of the loss when it suddenly burned was thoroughly ventilated and Harry was asked whether he had not driven out to Hamel with Miss Ging the morning after the fire. This he denied utterly. This and other questions were asked for impeachment purposes, the state proposing to show on rebuttal that Harry is not telling the truth.

Harry described how he had turned the lot given him by his father into cash, first by mortgages and then by disposing of the equity to Elder Stewart. The proceeds had been nearly \$10,000 and this he had partially lost at gambling while the rest he had given to Adry in a sealed envelope and it was put in the safe. He declared that the most money he had ever lost at one sitting was \$5,700 at the Twin City Athletic club.

The hold-up story was gone into in the afternoon, and Mr. Hall used innuendo to show that it was Harry who had been the prime mover in that affair. Hayward denied it point-blank. He admitted he did not want the matter reported to the police, but that was on Adry's account. This closed the cross-examination.

M. D. Wilson, the alleged missing witness, was called again by the defense, and Mr. Erwin proceeded to try to impeach his own witness. Mr. Hall objected, but Mr. Erwin had authorities, and the court allowed the questions. He was asked if he knew a James Ward. Mr. Erwin asked if the witness had not told Ward Adry was the man who was riding with Miss Ging at the time Wilson met them near Lyndale avenue and Hennepin. Wilson denied it flatly.

Then came the state's triumph. Harold C. Stevens was put on the stand. He swore on the night of the murder he, in company with a friend, a Mr. Wood, saw a buggy with the top up coming along at a brisk gait from the lake toward town. He looked in it closely and saw a man sitting in the middle of the buggy who had a light mustache and beard. When questioned by the state the witness said he saw a young couple on Lake street, and he and his companion walked on the side of the street where there was no sidewalk. He knew the young man who Miss Brown stated was with her at that time, but said he did not recognize him, although he passed close to the couple.

H. Percy Brown, his companion, swore Stevens never stated to him after the murder that he could see or describe the features of that man who was driving so rapidly on that lonely road. He corroborated the fact of meeting the young couple, and stated that when he heard the testimony of the two young people for the defense he thought at once that he and his friend were the suspicious characters referred to.

The fact that the cross-examination of Harry took such a short time makes it appear as if the evidence would all be in this week and the case go to the jury the first part of next week.

### LUMBER TRADE ABUSES.

Action of the Mississippi Valley Association at Minneapolis.

Minneapolis, Minn., Feb. 27.—The Mississippi Valley Lumber Manufacturers' Association held its annual meeting yesterday in Lumber Exchange Hall. Action was taken adopting a rule for a uniform grading of the output of all mills in the bounds of the association. Inspectors were appointed some time ago and the association gave its official sanction to the plan. Action was also taken regarding freight rates on lumber. A committee was appointed to secure a readjustment of the present schedule, which is regarded as unfair to white pine men of the north. Railroads will be asked to take off a number of obnoxious differentials. The convention also voted for a 50-cent advance in prices.

### Buttermakers Meet at Rockford.

Rockford, Ill., Feb. 27.—The third annual meeting of the National Butter and Cheese Makers' Association opened here yesterday. Scores of butter and cheese makers from all over the country arrived by every train, and hundreds more are expected. The opening session was held in the afternoon by President S. E. Allen of Forest City, Iowa. The report of the executive committee was deferred until to-day. Many interesting papers are on the program for discussion.

### Stolen Booty Recovered in Chicago.

Chicago, Feb. 27.—It is practically certain the robbers who robbed the vault of the First National bank at Grismold, Iowa, and who Monday fought a battle with officers in the streets of Council Bluffs are Chicago men. The proceeds of the robbery, \$600 in postage stamps, were yesterday recovered by Inspector Shea just after they had been delivered to Mark Davis, No. 176 South Water street, to whom they had been sent by express. Davis, together with his bartender, John Gilmartin, were arrested.

### Explosion in a Brooklyn Factory.

New York, Feb. 27.—An explosion last night in Brooklyn resulted in the death of one person, wrecked several houses, shattered glass for several blocks, and injured a number of people. It occurred in the unoccupied factory building at Nos. 27 and 31 Johnson avenue, formerly used as the Union Print works and owned by Mr. Levy of Nassau street, New York. A child 6 years old was killed and several people badly injured.

## THE UNLOADED GUN FATAL ONCE MORE

### FOND DU LAC YOUNG MAN WAS INSTANTLY KILLED.

While Cleaning a Gun, Supposedly Empty, the Top of His Head Was Blown Off—Fire at Sheboygan—Failure at Green Bay—Steam to Keep Water Mains Open.

Fond du Lac, Feb. 27.—The accidental discharge of a gun blew the top of William Sendley's head off last night killing him instantly. He was cleaning the gun and did not know it was loaded. He was a prominent young man.

### THE CUBAN REVOLT.

Energetic Measures Being Taken to Stamp Out Rebellion.

Havana, Cuba, Feb. 27, via Key West, Fla.—Martial law has been declared here, and the police and Spanish garrisons throughout the island are on the alert to prevent an uprising. Slight outbreaks have already occurred at Cienfuegos and Matanzas. At the latter place three Cuban patriots have been arrested and a small quantity of arms seized. The coast guards on land and gunboats by sea are patrolling the coasts to prevent the landing of filibusters from Florida, Honduras, or Costa Rica. Spies in Tampa and Key West have reported unusual activity among refugees and have forwarded some information of a general conspiracy afoot. The government seems to fear an insurrection and to be taking extreme measures to stamp it out. It is now claimed the revolutionary movement had its inception in New York.

### FUNERAL OF DOUGLASS.

The Body Lies in State at the Rochester, N. Y., City Hall.

Rochester, N. Y., Feb. 27.—Just before the train bearing the remains of Frederick Douglass pulled into Rochester yesterday morning there marched in the train-house the funeral cortege, including the Douglass League of Rochester, bearing the league banner draped in mourning. The mayor, members of the city council, and other city officials came in carriages. At the city hall the body of Rochester's famous son lay in state several hours. The decorations were elaborate. The procession formed at the city hall at 1:30 o'clock and proceeded to the Central Church. The crowd was so dense at the church that the guard of eight policemen had to be doubled.

### AFTER RAMSAY'S BONDSMEN.

Creditors of the Bank at Carlisle, Ill., Organize for Action.

Carlisle, Ill., Feb. 27.—The creditors of the Ramsey bank to the number of 100, at a meeting yesterday, completed arrangements to fight the claim of \$363,000 filed against the estate by the bondsmen of Ramsay, especially its being placed in the sixth class. The validity of the claim will also be tested, and the bondsmen, Gov. Altgeld, Auditor Gore, and other high state officials, placed on the witness stand and compelled to tell what they know in regard to the case. If the \$363,000 claim can be placed in the seventh class Carlisle bank creditors will receive 50 cents on the dollar.

### French Deputations Demand It.

Paris, Feb. 27.—The embargo placed on American cattle is due to the representations made by numerous deputations which have recently been calling upon the minister of husbandry, notably an influential deputation which called upon him Feb. 22. For some time past a violent crusade against American cattle has been waged in the French press, and descriptions of the alleged terrible condition of American cattle arriving at La Vallette saying how the animals were a mass of skin, bones, and sores also appeared in the English newspapers.

### Plans Laid for Silver Commission.

Washington, Feb. 27.—The senate finance committee yesterday ordered a favorable report on the amendment to the sundry civil appropriation bill to provide for the appointment of a commission of nine on behalf of the United States to attend an international conference on the rehabilitation of silver in case one shall be decided upon. There were some verbal amendments, but the provision for the selection of three members from the senate and three from the house was retained. The President appoints three of the members.

### Banker Koetting Gets a Writ.

Madison, Wis., Feb. 27.—Justice Cassidy yesterday granted the petition of John B. Koetting for a writ of habeas corpus in order to determine the constitutionality of the law under which he was indicted. The hearing is set for March 7. Mr. Brazee says that if Koetting is freed on this ground he will have him arraigned on the charge of embezzlement, but he would say nothing as to what he will do in the case of the Plankinton bank officials, who would also be freed from the indictments by the same decision.

## A LIVELY SESSION OF THE COUNCIL

MUCH BUSINESS CONSIDERED  
LAST NIGHT.

**Water Company Tell of Frozen Hydrants—Hogan Claim Report Adopted—Chemical Engine May Be Borrowed—High School Sewer—Other Business.**

An hour's session of the common council was held last evening with all the aldermen present except Aldermen Cunningham and Smith. Considerable business of general interest was considered. Mrs. Imogene Champion notified the council that on November 6, last, she fell on a defective sidewalk in this city, breaking her arm, that her physician, Dr. Pember, claimed the arm could never be permanently restored; that while it would not be entirely useless, it would be a source of trouble. She said she was inclined to be fair with the city in her demands for damages, but thought she ought to have \$300 in settlement. The communication was referred to the judiciary committee and the city attorney.

The clerk read the resignation of William M. Cunningham as alderman of the Fourth ward, the resignation to take effect at once, which was accepted.

Alderman Baines, of the finance committee, reported in favor of allowing a number of bills against the several funds which was concurred in.

Alderman Child, of the fire and water committee, stated that the fire hydrant at Glen and North Main streets had been broken by the cars of the Chicago, Milwaukee & St. Paul railway company, and in the opinion of the chief engineer the hydrant ought to be moved as it had been broken twice before. On his motion the engineer was directed to move the hydrant to the opposite side of the street, out of danger of the cars.

A druggist's license was, on motion of Alderman Winslow, granted W. G. Palmer & Son.

**Report on Police Claims.**

Ald. Baines, of the special committee appointed to settle with Ex-Marshal John W. Hogan, Marshal T. L. Acheson and Patrolman John Kruse, submitted the following written report, which was adopted, Aldermen Rich and Winslow voting "no."

**TO THE MAYOR AND COMMON COUNCIL, GENTLEMEN:** The committee to whom was referred the account against Ex-City Marshal John W. Hogan submit the following report:

We have looked over the journal of the expense account of Mr. Acheson for two years and find the average expense account for one year is \$168.31. Taking this for an average and multiplying it by 8½ years, the term of Mr. Hogan's office brings an expense of \$1,428.68 due Mr. Hogan. According to Mr. Card's report Mr. Hogan is in debt to the city \$1,014.31, leaving a balance due Mr. Hogan of \$414.37, if you allow Mr. Hogan the same average expense as Mr. Acheson has expended.

We have seen Mr. Hogan and he is willing to let one bill offset the other. We have examined Mr. Hogan's bill of October 27th, 1894, against the city and amounting to \$1,135.30. In our judgment we do not consider it a proper bill and could not allow it.

This way of city marshal's doing business, while not proper and according to the charter, has not been done without the knowledge of former mayors and finance committees and councils, and they are as much to blame perhaps as the officers, in our judgment.

**Demand For Settlement.**

Alderman Baines also submitted the following, which was adopted by unanimous vote:

**TO THE MAYOR AND COMMON COUNCIL, GENTLEMEN:** Your committee to whom was referred the claim of the city against Patrolman J. W. Hogan of \$12 and John Kruse \$24, the amount reported by Accountant J. C. Card, recommend that these gentlemen be requested to pay to the city treasurer said amounts in settlement of the account.

Alderman Baines asked and was granted further time to consider the bill of Marshal Acheson.

Superintendent Mayne, of the city schools, addressed the council in relation to the sewerage for the new high school building. He feared damage would result to the building in case no provision was made to carry away the water from the roof.

This statement renewed the discussion in relation to the purchase of the Jeffries sewer on Dodge street, Alderman Child maintaining that the city had a right to attach to the same, while Alderman Rich stated that the city would be enjoined if it was attempted, and expensive litigation would follow. No action was taken.

The clerk was directed to draw an order on the general fund for \$9.80, for payment of state and county tax on high school lots.

On motion of Alderman McLean the Fifth ward aldermen were authorized to procure a stove for the election booth in that ward.

The street commissioner was directed to make the necessary repairs to the South Main street extension, under the direction of the Third ward aldermen.

**Water Company's Communication.**

The clerk read a communication from the chief engineer in relation to the condition of the fire hydrants, and his suggestion in relation to a chemical engine (the document being the same as already published in The Gazette) and also a communication from Manager C. L. Clark and Superintendent

W. C. Mitchell, of the water company, on the same subject, the latter communication reading as follows:

JANESVILLE, Wis., Feb. 26, 1895.

MR. JOHN C. SPENCER, CHIEF OF THE FIRE DEPARTMENT, JANESVILLE, WIS. DEAR SIR:—In view of the meeting of the common council this evening, to listen to your report of the present condition of the fire protection of the city, and to take action upon such recommendation as you may see fit to make, it would seem but proper that the water company should lay before you the exact condition of the fire service, so far as it pertains to the protection furnished by this company.

During the severe cold weather the company has been constantly on the watch to see that everything in its power was done to keep the fire protection for the city as perfect as possible.

A careful inspection of all the hydrants has been made, and as far as the company know, at the present time, every hydrant is ready for use except one hydrant at corner North and Gold streets and one at corner Carrington and Wheeler streets.

On the inspection seventeen hydrants were found to require extra force to open the valve or the use of steam to start the frost that had gathered around the valve. The latter course was adopted in order to avoid the danger of breaking the valve by use of too much force. More than likely many hydrants could have been started by a little more force.

Only seven hydrants were found to be frozen, located as follows, viz: Gold and North streets, Glen street and Fifth avenue, Franklin and School streets, Carrington and Wheeler streets, Garfield and Ruger avenues, Forest Park Boulevard and Ruger avenue.

The last four above mentioned were connected with a frozen main. As these hydrants have been thawed out and are ready for use except the two above mentioned.

Not a main that supplies water to the fire hydrants is frozen at this time except the one on Carrington street and only one hydrant is supplied by this main.

This company acknowledges the assistance you have rendered in making inspections, etc., and assures you that it will spare no time or expense in securing and maintaining the service the city is entitled to.

**Future Danger Unknown.**

Manager Clark being present, was asked in regard to future danger from frost, and replied that while in his opinion everything except what had been noted was all right at present, he could not say as to the future.

Alderman Child stated that if he could be assured all danger was passed, he would not, at this time, favor the purchase of a chemical engine, but if the danger was not over, the council should carefully consider the matter, and on his motion the matter was referred to the fire and water committee, which committee retired to consider the matter.

In a few minutes the committee returned and said they had considered the conditions, and moved that the whole matter be placed in the hands of the fire and water committee with authority to act, Alderman Child remarking that by this he meant to give the committee authority to borrow or purchase a chemical engine in case it was deemed advisable.

On motion of Alderman Baines the council adjourned until next Monday evening for the purpose of considering the ordinance in relation to the "uniform charter" law.

## RODE AND WALKED DOING GOD'S WORK

COUNTY MISSIONARY LEAS' ACTIVE CAMPAIGN.

Traveled 15,465 Miles, Wrote 1,755 Letters, Visited 9,487 Homes and Helped 112 Sunday Schools In the Good Cause—Report Made at the Annual Meeting.

Sunday School Missionary John H. Leas told of his work in that line at the annual convention at Evansville. He said:

"There are at present 112 Sunday schools in the county. My aim has been to organize when needed and help when needed. The call for help was freely given. More calls came than I was able to attend to. My work has prospered better in some parts than others, due to the way the people took hold, and their willingness to work has made a marked difference.

"My stay here has been short, yet long enough to know something of the needs of the county, and the visits made from home to home, amounting to 9487 have enabled me to see something of the spiritual life in the Rock county homes.

"My work has not been given to visiting alone. My correspondence has been increasing continually, and I have written since entering this field 1755 letters to our people urging them to work, or answering the questions asked of me. Many nights I have written until the midnight hour. Ninety-two Sundays have elapsed since I became one of your number of which there have been two that I have not served you, and the Sundays that I have had eight or ten helping me serve you have been many.

"During my stay here I had addressed 277 audiences, and held many prayer meetings in the homes. My work has not been in one locality alone; it has been in every township in the county. I have been called from the center to the northeast; from the northeast to the southwest, back and forth, day after day until I have traveled 15,465 miles; some by train, much on foot and more with my horse and buggy. "Have my efforts been successful?" is the thought that comes to me, as I am driving along the road; 'tis the thought that is with me as I sit by the fireside at evening, thinking of the blessed work, and what more is there that I can do to advance the Master's cause, for which I am chosen. The happy moments that I have are those when I enter my room and take your loved ones to Him in prayer.

"Has my time been well spent? Has it been work well done?" I leave that with you to say, and the Lord to bless; fifteen Sunday schools reorganized; twenty-four schools organized; gathering into the work 1497 members; have found 178 persons to take up the work of teaching and caring for the many schools. During the year past there have been preaching services in twenty-two of our school houses and town halls of the field.

"In which some have heard their first sermon, and many have found Christ. Twenty-seven of our mission schools have secured organs, two or three only having rented. It has been my aim to place in the homes of my field, good spiritual reading matter, and have placed there, 1,100 copies of the "Sunday School Missionary," besides several bundles of papers that the city schools gave me. Have sold the schools of the county \$122.42 worth of books and periodicals. Have placed in the homes 146 testaments and 89 bibles.

"In regard to county organizations I would say Rock county has a good one, yet I think needed improvements have been made during the year past that will give strength to the organization and advance the work.

"I found a good active county president, who has left his work during the week and his church home on Sunday to assist me. As time passed on the demand for my presence to the various parts of the county continued to increase. The work to do that would help us most gave me deep concern. Township organization seemed to be the best remedy in reach and to bring this about district conventions were held in which were chosen presidents and secretaries for 16 of the 20 townships. The remaining four are yet unorganized. The coming year we may hope for better work. With at least thirty-two good soldiers that will co-operate with a better missionaries service than the one you have had during the two years past. You can then grasp each other by the hands, look to God for strength, search the highways and hedges and gather the wandering ones in."

## FLAG RAISED ON A SCHOOL HOUSE

The Starry Banner Floats From a Pole at District No. 1.

Joint school district Number 1 raised a beautiful eighteen foot flag at the top of a fifty-five foot pole on Feb. 22. The programme was as follows: Raising of the flag by L. H. D. Crane post of Beloit; recitations by pupils of the school; vocal and instrumental music; addresses by the chaplain of Crane post, Superintendent W. M. Ross and F. P. Starr. The programme was carried out with the exception of the address of F. P. Starr, who was ill and was unable to be present. Much credit is due to the teacher, Miss Rena Smith, for her good work. This is the second time within the last eight months that she has been instrumental in bringing about a flag raising.

**JOHNSONS' LICENSE REVOKED.**

Beloit Saloonists Are Convicted of Selling Liquors to Minors.

Johnson Brothers, the Beloit saloonists, had their license revoked by the common council at the last meeting. City Attorney Rood appeared for the prosecution and William Smith, of this city, appeared for the defence. Attorney Smith stated that the matter was important because it involved the confiscation of property of two citizens. He urged that the council proceed slowly. He thought that the Johnsons must be keeping a good place if no stronger charge could be drummed up. The vote that followed was 7 to 5 in favor of revoking the license, and the council refused to grant the firm a billiard hall license.

## THIS DAY IN HISTORY

1705—General Francis Marion, Revolutionary hero of South Carolina, died; born 1732.  
 1807—Henry Wadsworth Longfellow, poet, born in Portland, Me.; died 1882.  
 1810—John Gibbs Gilbert, American actor, born in Boston; died there 1889.  
 1823—Joseph Ernest Renan, MARION, deistical writer and orientalist scholar, born in Brittany, France; died 1892.  
 1830—Elias Hicks, founder of the so called Hicksite Quakers, died at Jericho, N. Y.; born 1748. Hicks was a minister of the Society of Quakers until he caused a schism by embracing radical Unitarian doctrines. The society divided into "orthodox" and "antiorthodox," or "Hicksites." Very many of the latter did not adhere to Hicks personally nor adopt his extreme views, but made common cause with his disciples in the interest of religious liberty. The schism proved a serious check to the development of Quakerism in America.  
 1850—Philip Barton Key killed in Washington city by Hon. (since General) Daniel E. Sickles.

## RECONSTRUCTION.

The St. Mary's Banner published at Franklin, Louisiana, contains an editorial in a late issue urging the democratic party of the south to reunite and forsaking republicanism, populism and know-nothingism stand by the party for which they sacrificed so much in the dark days of reconstruction.

The editor admits that many democrats voted the republican ticket last November in the interest of self protection, and realizing that Southern industries were not safe in the hands of the democratic party. In another column of this paper is an account of the new manufacturing enterprises that are springing up all through the south.

The days of southern sentiment are rapidly passing away, and the press of the south generally recognizes the fact that northern hostility was buried on the last battle field of the rebellion thirty years ago.

Henry Watterson, the brightest representative of southern journalism is fully alive to this fact. In speaking of Abraham Lincoln before a Chicago audience, recently, he pronounced this grand eulogy. "The man who saved the south from itself."

It is high time that southern sentiment and southern prejudices were buried beyond resurrection.

Northern capital and enterprise is already contributing largely to southern prosperity, and if properly encouraged, a new south will develop during the next decade that will be a revelation to the oldest inhabitant. The republican party is the best friend the south has today. It possesses the ability to govern, a spirit of generosity to forget as well as forgive, and contains in a large degree the elements of energy and thrift that can be profitably utilized by the south.

The "Banner" man should turn his attention to encouraging the white republican party in his state.

## BAD LEGISLATION.

A bill is now pending before the legislature with some assurance of its passage, that looks on the face of it like an unwise plan of legislation to say the least.

The city of Eau Claire desires to purchase the city water plant, valued at \$275,000. Constitutional provision prevent the necessary issue of bonds, and it has occurred to the council that a good way out of the dilemma would be to borrow of the state school fund the necessary amount, and give the state school fund assurity a mortgage on the water works plant.

This the bill pending provides for. It is innocent of any promise to pay in five years or ten years, or at any other time, and if passed it looks very much as though the state would eventually become the owners of the water works. This may be "beating the devil around the stump" in a legitimate way. It certainly possesses the merit of novelty, and if successful might suggest to other cities having like restrictions, a good way out.

It would certainly keep actively employed any surplus that the state might accumulate through its school funds.

The ingenuity of Eau Claire should be rewarded with a Luther medal.

## Pay the Claim Promptly.

I wish to tender my sincere thanks to Mr. L. Black, Assistant Superintendent representative of the Metropolitan Life Insurance Company, of New York, for the prompt payment of the claim for insurance on my daughter, buried today, who was insured in the above company. I heartily recommend the Metropolitan Life Insurance Company to all, as being the only company, which by paying so prompt proves itself to be "a friend in need." Janesville Wis., Feb. 26.

## How to Save Money and Health.

Most people have some trouble with their health which they would like cured if it could be done easily and cheaply. Dr. Greene, of 35 West 14th St., New York City, who is the most successful specialist in curing nervous and chronic diseases, makes the following offer: He gives you the privilege of consulting him, free of charge, through his great system of letter correspondence. Write him just how you feel and what symptoms trouble you. He will answer your letter explaining your case thoroughly telling just what ails you and how to get strong and well. He gives the most careful attention to every letter, and makes his explanations so clear that you understand exactly what your complaint is. And for all this you pay nothing. You do not leave your home, and have no doctor's fee to pay. The doctor makes a specialty of treating patients through letter correspondence, and is having wonderful success. He is the discoverer of that celebrated medicine, Dr. Greene's Nervura blood and nerve remedy. If you write him at once you will doubtless be cured.

## Honors Easy at Home.

Etiquette is not adhered to as closely at home as abroad. For instance the children and the father and mother sometimes drink out of the same cup, and cases have been known where they used the same napkin. Many such instances could be named and such being the case of course the conversation around the home fireside is more mutual. A case in mind is one which occurred at the fireside of one of our most prominent families last evening. The Gazette was there—the children, the father and mother had studied Lowell's advertisement and the children were delighted with that picture and the family talked about the great sale of tinware. Finally the wife addressed the husband thus, and the following conversation took place: "If I was going out to buy I would not go where all this big advertising is being done. I have to have a new boiler and guess I will get it tomorrow." The husband said "Why don't you go to—" naming a certain hardware dealer in the city. "No," she said "she would not." "But why not?" said the husband, "I thought you wouldn't go where they make such a noise." "Oh! I'll go to Lowell's," she said "because I always go there to buy tinware." Of course we don't mean to intimate that Lowell's advertising in last evening's Gazette had anything to do with this case, but isn't it strange that this lady did not decide to buy a boiler until Lowell started a fire sale of tinware?

THE fifth and last entertainment on the People's Lecture Course comes on this week, Friday night, when John Temple Graves, of Georgia, gives his great lecture on "The Reign of the Demagogues." This lecture was delivered before the Monona assembly at Madison last summer and proved one of the features of the program. Mr. Graves is a southerner of the "New South," and is attracting more attention in the north than any other platform speaker from that whole section.

## The New Boy.

A very bad man is to be in town next Friday evening. He is an elderly, good looking villain, dangerous to have in a family. He is anxious to marry a buxom young "widow," a large, handsome woman, the matron of a boys' school. For further particulars see W. H. Stoddard, manager Grand opera house.

IT GIVES WARNING that there's trouble ahead—if you're getting thin. It shows that your blood is impoverished, and your organs deranged, so that whatever you eat fails to properly nourish you. And just as long as you remain in this condition, Consumption, Pneumonia, and other Scrofulous and dangerous diseases are likely to fasten upon you. You should build yourself up with Dr. Pierce's Golden Medical Discovery. Purify and enrich the blood, rouse every organ into natural action, and build up healthy, wholesome, necessary flesh.

DR. R. V. PIERCE: Dear Sir—We have used your "G. M. D." in our family and find nothing else to equal it. One of our children had the pneumonia, and one lung become consolidated, but by the use of the "Discovery" she has entirely recovered, and is now in good health.

M. J. McCUE FOUND SENSELESS  
IN A STALL.

Horse Had Kicked Him Twice Cutting  
a Five Inch Gash In His Leg and  
Injuring His Stomach—Hurted Are  
Not Dangerous—E. C. Burdick's  
Hard Fall.

For an hour and a quarter Michael J. McCue, of the firm of McCue & Murphy, the livermen, lay unconscious in a stall this morning, while the horse that had knocked him insensible ran about the barn loose. Then Arnie McBride came to the barn and discovered that Mr. McCue was hurt. He was picked up and a physician dressed his injuries which, although painful, are not now thought to be dangerous. Mr. McCue came down to the barn this morning, and while feeding one of the horses the animal kicked him in the knee, cutting a five-inch gash. Before Mr. McCue escaped the beast kicked him again, striking him in the stomach. McCue fell in the stall and lay there until 7:15 when McBride found him. The horse had broken its halter and was loose in the corridor. The kick in the stomach is the injury that Mr. McCue fears most but unless some complication follows he will soon be all right.

HAD A GOOD TIME AT A DONATION.

Pleasant and Profitable Social Event at  
Rev. A. Porter's Home.

The donation given by the First M. E. church for the benefit of their pastor was a success beyond what was anticipated. Sixty-two dollars were given to Rev. Porter as the financial result, while the social cheer of the evening was an important element of its success. A bountiful supper was provided by the ladies and a musical and literary program was well rendered and thoroughly enjoyed by all. Rev. F. A. Pease added not a little to the pleasure of the entertainment by a short address on the toast: "Our Women," in which he showed they had both quality and immensity, and some he feared were just a trifle selfish, in that they were so eager to get the earth, that they were determined to live alone; which of course was a hard hit on the "old maids" present.

THE M. D. CLUB HAD A FINE TIME.

They Closed The Season at The Home of  
Miss Josephine Carle.

The "M. D. Club's" season came to a close last evening with a delightful 6 o'clock tea at the home of Miss Josephine Carle. Prizes at the card tables were won by Miss Racine Bostwick and W. W. Watt. Misses Marcia Jackman and Hattie Bostwick attended the tables and the guests were:

The Concordia Masquerade.

Many masquerades have been given in Janesville, but the one given last night by the Concordia society was without a doubt the largest one of the season. There was a crush from early in the evening until the small hours of the morning. Smith's orchestra of eight pieces furnished excellent music and the grand march was led by Herman Hiese and Miss Poeschen. Miss Hattie Tobias as the "Swallow Maiden" and Miss Ida To-

bias as "The Fairy Queen" were very fine, while F. E. Petric as the "dude" was good. Otto Schicker and his brother John plays the "Two Johns" to perfection.

MINOR SOCIAL NOTES.

Miss LIZZIE HARRIS entertained a number of friends at a progressive cinch party last evening. Cards formed the evening's amusement. Charles Carpenter won the prize, while the "booby favor" went to Harry George. Miss Hattie George and Miss Clara Shurtleff won the ladies' prizes.

Mrs. W. T. KING entertained a number of lady friends at her home, 260 Prospect avenue, yesterday afternoon. The guests were: Mesdames J. Watson, D. Armstrong, C. H. Wilcox, O. Sutherland, J. Fitzgerald, W. Davis, A. T. Kemmett. Misses Campbell and Pitcher.

MR. and Mrs. J. G. Preller entertained the Evening Cinch Club last evening, the gentlemen's prize being awarded to Homer Paul while Mrs. F. H. Koebelin captured the lady's trophy.

BETWEEN fifty and sixty couples attended a dancing party given by the Knights Templar at Masonic hall last evening. A musical program was given and dancing lasted until midnight.

MR. and Mrs. H. W. Frink entertained the I. M. C. club last evening. W. P. Sayles and Mrs. D. W. Watt won the distinction at the card tables.

WATER CO. TO DRILL  
ANOTHER DEEP WELL

NEED BE NO FEAR OF USING  
SURFACE WATER.

While the Present Supply Is Adequate  
For Present Needs the New Well  
Will Provide For the Future Growth  
—Work Will Be Done In the  
Spring.

Few fears need be entertained by the Janesville water company's consumers that their supply is taken from the river or from a surface well.

The original well, which has a capacity of over five hundred gallons a minute, has, with the storage capacity of the reservoir and the stand pipe, been able to supply the city up to this time, and while there is now no occasion to fear a deficient supply, it may happen that the supply will not be sufficient in case of a long service at a fire which would require many hours of pumping. Steps are now being taken by the water company to increase their supply and it is definitely settled that an additional well will be sunk in the early spring. The company has secured an option on a lot at the corner of Oak and South Jackson street, on which it is proposed to sink the new well. This location will be somewhat over one thousand feet distant from the present well.

A Gazette reporter called on Manager Clark this morning, but that gentlemen had very little information to impart for the reason that nothing had yet been definitely determined by the company. He confirmed the statement, however, that a new well would be sunk in the very near future.

"In fact," said he "had it not been for the misunderstanding between the city and company, the new well would have been down before this."

"The original well is located in the street, why does the water company now locate the additional well on a private lot?" was asked.

The answer was in effect that the company would be more secure in its rights to locate the well on its own property.

## A Cogent Reason.

Miss Madison Square—Can you explain how it is that where one hundred men abscond not more than one woman can be found who is in the least dishonest?

Miss Fremont—Certainly. The women have no extravagant wives.—Puck.

## Startling Information.

Daisy Lighthedde—According to this publication Parisian ladies are not going to wear dresses any longer.

Mrs. Parsons—Great heavens! why not?

Daisy Lighthedde—Because they are long enough already.—Truth.

## Lying Low.

Schoolmate—Why do you never touch your piano?

Miss Thumper—We're buying it on installments.

"What difference does that make?"

"I'm afraid if paw should hear me play he'd stop paying."—Good News.

## Compromise.

Customer—I want a dress of some neutral tint.

Modiste—But you are a pronounced blonde.

Customer—Yes, but my cook is a brunette.—Detroit Tribune.

## Made a Difference.

He—Here is a picture of my wife.

She—Before or after taking?

He—What do you mean? Before or after taking what?

She—You.—N. Y. World.

## Real Test of Character.

After all, the man who can't tell a lie isn't so much to be respected as the man who can tell a lie, but won't.—Somerville Journal.

It is not a miracle. It won't cure everything, but it will cure piles. That's what Dr. Witt's Witch Hazel Salve will do, because it has done it in hundreds of cases. C. D. Stevens

## RELIGIOUS NOTES.

Rev. J. A. Rowlands, for a number of years pastor of the Franklin Square Baptist church of Baltimore, has resigned to assume the duties of the president of the American Baptist Publication society.

Rev. F. E. Clark, founder of the Christian Endeavor society, has returned from a trip to Scotland and England.

The late Lemuel Coffin of Philadelphia, by will, left the sum of \$50,000 to the Episcopal church of the Holy Trinity of that city.

A recent order of the Methodist church is to the effect that the deacons shall wear black gowns, with gathered or plaited skirts, bishop sleeves, round waists, turn down collars and white cuffs. If they desire to friz the hair they are permitted to do so.

Archdeacon Farrar has been appointed deputy clerk of the closet in ordinary to her Majesty Queen Victoria.

Rev. Joseph Tyler, one of the earliest missionaries to the Zulus in South Africa, has received from the Shaw University of Raleigh, N. C., the honorary degree of D. D.

## The Keystone of the Arch.

In the edifice of health is vigor, which means not merely muscular energy but an active discharge of the various functions of the body such as digestion, secretion of the bile, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the united performance of these functions than the so-called tonic and regulator, Hostetter's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the nature of life is being strengthened—that one is living up a store of vitality against the unavoidable draughts which old age makes upon the system, the fortifying influence of the Bitters constitute its reliable safeguard against senility, rheumatism and kidney trouble. Appetite and sleep improve through its use, and a whole system is freed from the effects of cold and grip.

If the baby is cutting a tooth, secure an instant relief and well-earned remedy Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind, colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## STARKING.

Her cheek is like the red, red rose,  
With carmine tints imbued;  
The only difference is this:  
The rose can't be renewed.

Cures  
Rising  
Breast"MOTHERS'  
FRIEND"

Is the greatest blessing ever offered to the old-bearing woman. I have been a midwife for many years, and in each case where "MOTHERS' FRIEND" was used it accomplished wonders and relieved much suffering. It is the best remedy for rising of the breast known, and worth the price for that alone.

## Sure Sign.

When you see a rabbit's track in the snow you may be certain the rabbit has been there. Circumstantial evidence of that kind is equivalent to proof.

A country minister, according to an exchange, remarked to his wife Sunday noon:

"There was a stranger in church this morning."

"What did he look like?" asked the wife, who was a woman first and a minister's wife afterward.

"I didn't see him."

"Then how do you know there was a stranger there?"

"I found a dollar bill in the contribution box."

## Bound to Succeed.

A citizen stepped into an uptown pharmacy and called for a couple of pills, which he swallowed.

"How much?" he asked.

"Fifty cents."

"Fifty cents? Why, the druggist on the block below never charged me more than five."

"Then I'll make it four. I'll drive that man out of business if I have to sell goods at cost."—Tammany Times.

## Taffy.

My Beth is very sweet to me.  
Far sweeter than she used to be.  
And that is just what puzzles me—  
I wonder what's amiss?

She calls me darling, ducky, dear,  
And fills my pocketbook with fear.  
Her natal day is drawing near—  
I'll have to pay for this.

## —Truth.

## A PRECOCIOUS PUN.

Mrs. Stuckey (a widow)—What are you staying behind for—are you tired?

Willy (who has overheard the proposal)—I should say so; I kin hardly go a step-father.—Judge.

## Domestic Strategy.

Husband—Why do you scold the butcher? It isn't his fault that the meat comes to the table all dried up.

Scold the cook.

Wife—I don't dare to; but I'm in hopes that if I keep on scolding the butcher he'll get mad and come around and scold the cook.—N. Y. Weekly.

## A BOSTON GIRL'S LIFE

Saved from Ruin and Despair by the Timely Aid of a Noted Woman.

(SPECIAL TO OUR LADY READERS.)

Is there anything more truly pathetic than the cry for help that springs from the anguished heart of a young girl—a beautiful girl who sees ahead only suffering and uncertainty? But oh, what joy and gladness her young heart pours forth when she realizes that her dreaded enemy, the blasting influence, is gone,—banished forever.

This sunshine and joy is now the happy portion of Miss Florence of Beacon Street, Boston.

She often tells of her suffering from the suppression of the menses. The pain was excruciating. The doctors, instead of removing the cause of her ailment, plied her each month with morphine to prevent convulsions; but the trouble was permitted to exist.

When she could endure no more,—prostration was imminent and future hopeless,—her family procured a bottle of Lydia E. Pinkham's Vegetable Compound, which, surprising to all, rapidly and permanently cured her.

In writing to Mrs. Pinkham, pouring forth her gratitude and happiness, she says: "Oh! that I could make every suffering woman try your valuable medicine! How they would bless you!"
